OBJECTIVE

Enthusiastic BCA undergraduate seeking an internship in full-stack or software development. Experienced in building web applications using React.js, with working knowledge of backend technologies such as Node.js and MongoDB. Proficient in Python and core web technologies (HTML, CSS, JavaScript), with practical project experience. Familiar with basic cybersecurity concepts and committed to continuous learning and contributing effectively in team environments..

EDUCATION

Bachelor of Computer Applications (BCA) 2024 – Present
SRM University Sikkim, Sikkim, Gangtok

- Current CGPA: 8.8 / 10
- Relevant coursework: Data Structures, Algorithms, Operating Systems, DBMS, Computer Networks, Software Engineering

Class XII — BHSEC 2023

Damphu Central School, Tsirang

- Percentage / Score: 63%

ACADEMIC PROJECTS

Tic Tac Toe Game

Tech Stack: HTML, CSS, JavaScript

- Developed an interactive browser-based Tic Tac Toe game with a responsive user interface.
- Implemented game logic using JavaScript, including turn-based play, win condition checks, and game reset functionality.
- Designed the UI using CSS to enhance user experience and ensure smooth gameplay.
- Successfully created a fully functional game demonstrating core front-end development and problem-solving skills.

NGO Website for Women for Girls

Tech Stack: React.js, CSS, EmailJS, GitHub

- Developed a responsive front-end website for the NGO Women for Girls (WONEM) to improve online presence and user engagement.
- Designed and implemented user-friendly UI components using React.js and CSS.
- Integrated EmailJS to enable contact form functionality without backend support.

- Collaborated using GitHub for version control and team development.
- Deployed the website using a hosting platform, ensuring accessibility and performance.

TECHNICAL SKILLS

Languages	C, Python, JavaScript, Java, PHP,
Frameworks	Familiar with modern frameworks and libraries such as React.js for building dynamic and responsive user interfaces. Possess basic knowledge of Node.js for backend development and understand component-based architecture and state management in web applications.
Tools	Experienced in using development and design tools such as Git and GitHub for version control, Figma for UI/UX design and prototyping, Visual Studio Code for coding, and EmailJS for integrating email functionality in web applications. Also familiar with tools like Burp Suite for basic web security testing and Oracle VirtualBox for running virtual environment
Databases	Familiar with database technologies including MongoDB and MySQL, with a basic understanding of data storage, queries, and database management concepts.
Other	Skilled in front-end development using HTML, CSS, JavaScript, and React.js, with basic knowledge of backend development using Node.js and programming in Python. Possess foundational knowledge of UI/UX design principles and basic cybersecurity concepts, along with strong problem-solving and debugging abilities.
